

## Montpelier Primary School

4<sup>th</sup> December 2006

Trusol Services Ltd has supported Montpelier School during the past 18 months. Throughout this time Trusol has provided an exemplary service and always delivered a high quality level of provision in order to meet the challenging and unique needs of our school.

Trusol's high level of technical ability - backed up by a resource team with wide ranging experience – and its ability to work effectively alongside our busy staff, makes it an ideal partner for any school wishing to accelerate its ICT provision and infrastructure to meet new and changing learning or administrative needs.

During the past year Montpelier has taken significant steps towards fulfilling its vision of becoming an e-confident school. Trusol's involvement in this process has been critical to our ongoing success. Both I, and my staff, have benefited from a level of ICT support which had not previously been available to us. It would be fair to say that Trusol's commitment and dedication to our school contributed towards the overall success of our OFSTED inspection earlier this term.

Trusol's adaptability and creative approach to meeting schools' needs makes it a provider that I have no hesitation in recommending to others.

A handwritten signature in black ink, appearing to read 'Am Rai'.

Mr Am Rai

Head Teacher
